Professional Summary

Final-year B.Tech Computer Science graduate (2026) with a strong foundation in data structures, object-oriented programming, and Java, plus hands-on full-stack development experience using React.js, Node.js, Express.js, and MySQL. Completed Java Full Stack Development training covering Core Java, Hibernate, and Spring/Spring Boot. Comfortable designing and coding solutions from broadly defined problems, debugging across the application stack, and delivering working software in an agile, team-based setting. Customer-focused, analytical, and eager to learn distributed systems and large-scale engineering practices.

Technical Skills

- **Languages:** Java, JavaScript, SQL
- **Core CS Fundamentals:** Data Structures, Object-Oriented Programming (OOP), DBMS, Debugging & Testing
- **Java Ecosystem:** Core Java, Servlets, JSP, Hibernate, Spring/Spring Boot
- **Web & APIs:** React.js, Node.js, Express.js, RESTful APIs, JSON, HTML5, CSS3, Client-Server Architecture
- **Databases:** MySQL, Relational Database Modelling, CRUD Operations
- **Version Control & Workflow:** Git, GitHub, Agile/Sprint-based Development, VS Code, Eclipse

Projects

Hospital Management System – Academic Project *React.js, Node.js, Express.js, MySQL*

- Designed and built a full-stack web application from a broadly defined problem (digitizing patient records, appointments, and billing), taking it from requirements through design, development, testing, and deployment.
- Built RESTful APIs with Node.js and Express.js to connect a React.js frontend to the backend, and designed a MySQL schema with full CRUD operations.
- Implemented role-based access control across 4 user roles (Admin, Doctor, Nurse, Support Staff) to protect data security and privacy.
- Debugged and tested features across the stack, identifying root causes and fixing defects to improve reliability.
- Collaborated with a 4-member team in sprint-style cycles to deliver high-quality software on time.

Certifications & Training

- **MERN Stack Development** – Smart Bridge / SmartInternz (hands-on training program covering React.js, Node.js, Express.js, MongoDB)
- **Java Full Stack Development** – JSpiders (secured seat via entrance test); covering Core Java, Servlets, JSP, Hibernate, Spring/Spring Boot, HTML, CSS, JavaScript, SQL, React.js
- **Advanced Computer Architecture** – NPTEL Elite + Silver, Score: 83%

Education

B.Tech, Computer Science and Engineering 2022 – 2026
Srinivasa Institute of Technology and Science, Kadapa *CGPA: 7.8 / 10*
Intermediate (MPC) 2020 – 2022
Sri Chaitanya Junior College, Kadapa

Achievements & Leadership

- **Eagerness to Learn:** Completed independent MERN Stack Development training and NPTEL coursework beyond the classroom curriculum.
- **Problem Solving:** Strong analytical and logical thinking with hands-on debugging and root-cause analysis experience.
- **Communication:** Clearly explains technical concepts and issues to non-technical stakeholders.
- **Leadership:** Led a 4-member academic project team, coordinating tasks for on-time delivery.
- **Collaboration:** Works effectively across technical and non-technical teams; comfortable receiving and applying feedback from reviews.
